
Packets (sniffed or replayed pcap)
Feature aggregation (flows, window)
Rule-based detector (+ Random Forest confirmation)
Threat label
Rule-based playbook
Stackelberg game
PPO policy
Evidence arbiter (best measured proposal)
evidence
Response executor (iptables chain)
Record book: 693 live Mininet measurements (21 situations x 10 responses x 3 repetitions)
The record book grades every policy. The playbook, Stackelberg and the model-trained PPO never read it.
